Full Stack Developer | Frontend Engineer | React.js | Node.js | MongoDB | Express.js

Professional Summary

MERN Stack Developer with 6 months of experience building scalable, high-performance web applications. Proficient in React.js, Next.js, TypeScript, JavaScript, Node.js, Express.js, MongoDB, and PostgreSQL. Skilled in RESTful API development, performance optimization, and reusable component architecture. Dedicated to clean code, problem-solving, and delivering secure, maintainable, and user-centric solutions.

Skills

Frontend: React.js, Next.js TypeScript, JavaScript, Redux, React Query, HTML5, CSS, Bootstrap, Tailwind,

Backend: Node.js, Express.js, MongoDB, Mongoose, SQL, Sequelize, Prisma, JWT, RESTful APIs.

Tools: Git, GitHub, Vercel, Railway, npm, MongoDB Atlas, pgAdmin, Postman, Netlify, Docker.

Experience

MERN STACK DEVELOPER || TECHBUGGS LAHORE **05/2025 – 11/2025**

- Collaborated with cross-functional teams to design and implement dynamic, responsive user interfaces for a UK-based healthcare client project using React.js, ensuring intuitive user experiences and high performance.
- Designed, developed, and maintained scalable RESTful APIs for the organization's calendar management system using Node.js and Express.js, ensuring efficient data handling and secure communication.
- Implemented Sequelize ORM to improve data interaction, database management, and query optimization. Developed RESTful APIs, including SSO login, ensuring secure authentication.

SOFTWARE ENGINEER || TECHVERX LAHORE **10/2024 – 01/2026**

- Successfully completed intensive training in SQL, JavaScript, React.js, and Node.js, developing practical skills in full stack web development and database management.
- Developed login/signup features with React and TypeScript, and built a Netflix clone and other frontend projects to strengthen practical skills.

TRAINEE || KNOWLDAGE STREAMS LAHORE **07/2024 – 10/2024**

- Completed 100-day MERN Stack Bootcamp, learning React.js, Node.js, Express, MongoDB, PostgreSQL, problem-solving, and professional soft skills.

PROJECTS

Smart Irrigation System (FYP) **IUB 2023 /2024**

Developed an IoT-based smart irrigation system with AI-driven soil moisture analysis to optimize water usage. Integrated real-time sensors (DHT11, soil moisture) with automated water flow and cloud monitoring, enhancing efficiency and reliability in smart agriculture.

Full-Stack E-Commerce Website (React | Node.js | Express | MongoDB) (View Project)

- Developed a **fully functional e-commerce platform** with user authentication, admin panel, and secure payment options.
- Implemented **authentication & authorization** using JWT and bcrypt.
- Enabled **product filtering, cart management, and real-time notifications** with **React-Toastify**.
- Backend hosted on **Railway**, frontend deployed on **Vercel**.
- Designed as a **scalable, production-ready application** demonstrating full-stack development proficiency.

CERTIFICATIONS Software Engineer Intern Techverx | Lahore, MERN Stack Trainee Knowledge Streams, Lahore,

EDUCATION Bachelor of Computer Science | Islamia University of Bahawalpur **08/2020 – 06/2024**
